C-102 Sand

C-114 Forest Green

This color chart is a representation only and does not guarantee that the final color will be an exact match. The colors produced will rely heavily on skill, practice, and experimentation. Application methods and age of the concrete will result in different tones. Even in a controlled environment, cements, aggregates, water content and curing methods will contribute to different results. Concrete Coatings Inc. recommends that any changes be made to the acrylic cement overlay prior to sealing.
